Charles Cooper (Leicester) Ltd – T/A Cable House

Conflict – Free Minerals Policy Statement

Date: 19th February 2024

Page: 1 of 1

Declaration: As a distributor, Charles Cooper (Leicester) Ltd – T/A Cable House is committed to ensuring that we do not source minerals which are mined in the eastern region of the Democratic Republic of Congo (DRC) and other Conflict Affected and High-Risk Areas (CAHRAs) in conditions where human right abuses and armed conflict occurs.

This mainly refers to the following minerals:

- Tantalum
- Tin
- Gold
- Tungsten

We rely on and expect from our manufactured partners and their supply chain, that they have policies in place to avoid sourcing or mining any materials from illegal, and conflict prone smelters as mentioned above. For this reason, we recommend using the standardized Conflict Minerals Reporting Template (CMRT) of the responsible Minerals Initiative (RMI).

We shall continue to monitor and maintain the process that request suppliers to report any sources of potentially conflicted minerals in their products.

Signed: 

Title: Operations / office Manager
